

Providence College Certification of Finances

Certification Statement: Satisfactory completion of the form is necessary in order for you to certify that you will have the necessary funds to support your studies at Providence College for the four years of undergraduate study. Certification of the first year's expenses is a requirement to obtain a form I-20 which is used to obtain the student visa. While the College does offer a limited amount of need-based and merit aid to a portion of the admitted international student population at the time of acceptance, scholarships and College funding **does not increase** from year to year. Students and their families should expect that the tuition and fees would increase by a moderate amount from year to year. College-sponsored funding is renewable for up to four years of undergraduate study on the conditions that students maintain acceptable academic standing as defined in the College's catalog in effect for the corresponding academic year. This funding may decrease, depending on family income situation.

While on-campus employment may be available, it is not guaranteed; if awarded campus employment, the hours that can be worked are limited by a student's visa status. As such, students should not include anticipated on-campus earnings as part of their funding projections.

This completed form should be emailed to international@providence.edu or uploaded to the **Admission Status Portal**.
